

Semantic Web Services - PS 703655

Assignment 2 Service Science

Deadline: 12.04.2018 08:00

Umutcan Simsek

1 SOA and SESA (10 points / 0,5-1 pages)

What difference does SOA bring as a software paradigm? Explain why we need machine processable semantics for SOA and relate your explanation to SOA principles.

2 People as a Service (5 points / 0,5 pages)

For what kind of tasks are People as a Service applications useful? Explore Amazon Mechanical Turk and give another example application.
